Dear Majority Leader McConnell, Democratic Leader Schumer, Chairman Alexander, and Ranking Member Murray:

The undersigned organizations, representing millions of patients, advocates, caregivers, and health care providers, would like to affirm our support for President Trump's nomination of Dr. Stephen Hahn as Commissioner of the Food and Drug Administration (FDA). We urge the Senate HELP Committee to swiftly advance his nomination and the full Senate to vote to confirm Dr. Hahn.

The United States is at a pivotal moment in terms of public health. A confirmed commissioner is critical to ensure FDA is best positioned to continue to carry out the agency's important mission for millions of Americans.

Dr. Stephen Hahn is well qualified and has received broad-based support. As Chief Medical Executive at The University of Texas MD Anderson Cancer Center, he not only has the knowledge and experience gained by managing the cutting-edge research and medical practices of one of the world's most innovative teaching hospitals, but also firsthand expertise of patient needs and a deep understanding of the breadth of work that needs to be achieved on their behalf.

Due to his knowledge and experience, Dr. Hahn is the right person to ensure the FDA keeps pace with science and innovation without sacrificing the safety and efficacy gold standard established by the agency.

Additionally, we know that Dr. Hahn can maximize value for patients through the FDA. Congress must ensure that FDA continues its important mission to provide patients with safe and effective treatments. We ask the Senate to do what is right for patients and swiftly confirm Dr. Stephen Hahn as FDA Commissioner.

Sincerely,
